LET YOUR BUSINESS RUN

SOLUTIONS OVERVIEW

 **imageRUNNER®**
Let Your Business RUN

Successful business people constantly seek ways to improve their businesses. But everyday office inefficiencies can impede productivity, sap resources, and compromise the ability to compete.

Canon works hard to resolve these workplace inefficiencies so you can maximize business performance.

Move yourself, your talent, and your business to where you want them to be.

WORKFLOW

Who's to say everyone across an entire organization can't work in dramatically more efficient and productive ways? Canon helps you address the tactile, everyday needs we all have to get things done quickly, accurately, and with a high degree of quality.

ENTERPRISE

Business people have more than enough to worry about. Why not give them practical, powerful tools that let them effectively manage their print infrastructure, reduce costs, and ensure security.

VISION

When you consider the scale of human accomplishments, it's astounding. But the actions and ideas that work best are usually in harmony with the world around us. We strive to move business forward while never losing sight of the bigger picture.

COLOR

Want to see how direct access to color printing helps businesses drastically improve communication results?

Need to convey your ideas with more impact, effectiveness, and clarity?

Find creating or printing color documents to be difficult or time-consuming?

Overwhelmed by a high volume of color print jobs in a deadline-driven environment?

Wish you didn't have to routinely output numerous test prints to get one good one?

Looking for in-house access to variable data printing, page imposition, and custom finishing?

Frustrated when the print-queue cannot be managed or re-prioritized?

DISTRIBUTION

Canon color solutions deliver speed, reliability, and a full complement of finishing options — for professional results every time.

PRODUCTIVITY

- ✓ Give your staff the power, convenience, and flexibility to create professionally color-managed and finished documents in-house.
- ✓ Streamline internal publishing processes with professional make-ready capabilities.
- ✓ Ensure the print process is managed and that jobs are consistently completed on schedule.

DOCUMENT MANAGEMENT

Looking for better ways to archive, search for, and retrieve business documents?

Stacks of papers or overstuffed filing cabinets crowding your workspace?

Physical searches for hard-copy documents wasting too much time?

Looking to transform paper files into an efficient, searchable digital archive?

Network servers crowded with a mess of unnecessary files that lead to lengthy document searches?

Need a reliable disaster recovery plan for your paper archive?

archives RUN effectively

Canon helps you optimize paper-handling tasks. Now it's much easier to archive, locate, and take action on every bit of valuable company information.

- ✓ Simple scanning processes improve access and productivity company-wide.
- ✓ Manual, paper-intensive processes like handling faxes, invoices, or shipping forms are streamlined.
- ✓ So easy to use, any company can start with simple scan access, and scale up to a more comprehensive digital archive at their own pace.

DOCUMENT DISTRIBUTION

Want an efficient way to capture, archive, and distribute hard-copy document information?

Looking for ways to customize, automate, and streamline your document distribution and paper processes?

Wish it was easier to capture and distribute hard-copy document information to multiple locations — such as email addresses or network folders?

Need to make sure user scanning privileges adhere to regulations and security policies?

Looking for a solution that seamlessly links to your existing document management or cost accounting system?

ideas RUN actively

Canon makes it easy for you to establish customized, secure, and automated document routing.

- ✓ Capture, convert and distribute — all directly from the device.
- ✓ Streamline workflow by giving users direct access to a wide array of document management and accounting systems directly from their MFPs.
- ✓ Cultivate a work environment where communication, collaboration, and speed are both customary and expected.

PRODUCTIVITY

Looking for proven efficiencies to help everyone reach project goals more quickly and easily?

Frustrated by slow print speeds or waiting for other jobs to finish before you can get your prints?

Want to give your users the ability to easily combine pages from different files for meeting materials or reports without worrying about source document file formats?

Does converting hard-copy information into searchable data require more time and resources than anticipated?

Looking for ways to reduce downtime caused by device errors or "out of toner" messages?

projects RUN reliably

Streamline the way your documents are created, produced, and printed.

- ✓ Drastically reduce printing mistakes and more consistently complete projects on time.
- ✓ Combine multiple different source file types into one cohesive document with great speed and incredible ease.
- ✓ Enable users to repurpose hard-copy spreadsheets, presentation slides, and text documents with speed and accuracy.
- ✓ Eliminate frustrations caused by over-used or faulty print devices.

SECURITY

Surprised to hear that sensitive documents flow through your MFP devices?

Concerned about access to sensitive information through devices on your network?

Confident that *only authorized* users have the ability to scan and access company files via your MFP devices?

Are unclaimed hard-copy printouts posing privacy or security risks in your office?

Can you ensure and protect the authenticity of hard-copy documents scanned from your MFP devices?

Do your networked copiers and printers offer the needed security levels for data transmission and storage?

communications RUN securely

Protect sensitive, confidential, and proprietary information without compromising staff productivity.

- ✓ Exchange documents and other work files freely, yet securely.
- ✓ Help prevent unauthorized access to the document-sharing capabilities of your MFPs.
- ✓ Promote a highly secure means of collaboration and productivity.
- ✓ Be confident your MFPs meet the same high security standards as other network devices.

COST RECOVERY

Know where all your print costs come from? Can you identify which costs are necessary and which are not?

Need to keep print costs to a minimum?

Got tools in place to keep employees from making unnecessary prints?

Looking to modify the wasteful print behaviors of everyone in your organization?

Notice color printouts left unclaimed or recycle bins that often overflow?

Looking for a simple way to bill print costs back to your departments or outside clients?

operations RUN productively

Canon makes it easy for you to identify, evaluate, and manage print costs.

- ✓ Track all output activity and gain control over color printing costs.
- ✓ Train users to adopt more cost-effective print behaviors.
- ✓ Attribute client, account, department, and project costs with ease.
- ✓ Schedule customized, automated print usage reports to monitor usage and keep budgets in check.

DEVICE MANAGEMENT

Looking for simple, convenient ways to administer all print devices on your network?

Spending too much time manually collecting meter counts from each of your print devices?

Time spent reacting to constant user print problems taking you away from more important projects?

Network devices not properly configured because you don't have the time or support?

Still installing network print drivers one PC at a time?

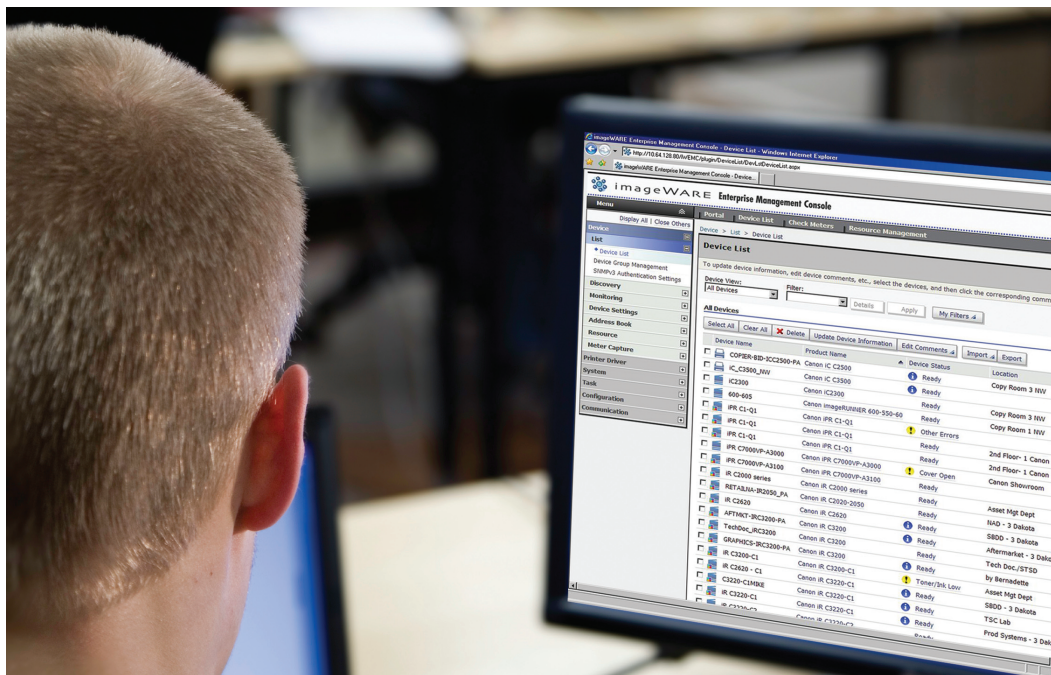

Looking to configure and control all network device settings without ever leaving your desk?

Task of generating print activity reports take more time than it should?

applications RUN harmoniously

Canon streamlines device management tasks for all IT administrators.

- ✓ Manage devices directly, or remotely over the network.
- ✓ Turn projects which were once a chore, into automated, scheduled tasks, or a simple remote request.
- ✓ Retrieve meter count data from all network devices easily, instantly, and remotely.
- ✓ Anticipate or prevent most user issues. React swiftly and comprehensively to the rest.

USABILITY

Looking for advanced MFP technology that's easy to use?

Wish your users were more in control of MFPs and print devices — rather than the other way around?

Want to streamline employee training needs with simpler, easy-to-use network devices?

Have confidence that office device tasks will always execute as planned?

Prefer an upgrade to smart screens that *guide* users rather than confuse them?

workflows RUN smoothly

Canon invests significant time and effort to user interfaces — so you don't have to.

- ✓ A refined, consistent user experience helps boost comprehension, convenience, and speed.
- ✓ Device and management features are easy to learn, simple to use.
- ✓ Easily navigate device options to execute tasks as planned.
- ✓ Consistent printer drivers, remote management, and guides help reduce training demands.

USABILITY

ACCESSIBILITY

ENVIRONMENT

ACCESSIBILITY

Confident your current print devices enable access for users with visual or physical disabilities?

A new employee with a visual impairment joins your team tomorrow. Will your current MFPs enable him or her to move forward on projects right away?

Can your current MFPs be easily modified to accommodate users with impairments or disabilities?

Looking to improve company-wide device accessibility remotely over a network?

Do you have users with visual impairments who need to output or distribute printed materials?

devices RUN universally

Canon relentlessly strives to improve work lives of the widest possible range of business users.

- ✓ Visually impaired and physically disabled users gain practical device access with Canon's Voice Guidance and Voice Operation Kits.
- ✓ Canon MFPs work well with screen reading software — so on-screen instructions can be read aloud for people who are visually impaired.
- ✓ Users can access and operate common control panel functions from any networked PC.

ACCESSIBILITY

ENVIRONMENT

ENVIRONMENT

What are your organization's most pressing concerns related to the environmental impact of technology?

Your organization taking steps to "go green?"

Need business solutions that contribute toward your company's environmental progress?

Looking for solutions to conduct business in environmentally-friendly ways?

Expect your suppliers, partners, and clients to conduct their business in environmentally-responsible ways?

Want to improve workflow efficiency, conserve energy, and prevent unnecessary waste?

Interested in ways to cut down on energy, resources, and wasted prints?

resources RUN efficiently

Choose to work with a company that can help your teams decrease energy use, cut consumable waste, and reduce your overall environmental footprint.

- ✓ Improve workflow efficiency, prevent waste, and conserve energy.
- ✓ Leverage devices in which operational weight and harmful materials have been drastically reduced.
- ✓ Equip your users with tools designed to help them prevent and reduce unnecessary consumable waste.
